

## Insurance Replacement Services

Providing insurers with a simple and cost-effective way of settling claims, our approach to insurance replacement solutions focuses on security and convenience.

There are many different ways to settle a claim in today's market, so we've designed our service to meet our clients' requirements.

As well as making claiming simple, the Insurance Replacement Card is a secure alternative to issuing cash. It gives your recipient the ability to choose their own product, whilst giving you visibility of purchases, allowing much greater spend control than with cash.

Depending on whether you choose merchandise fulfilment or the Insurance Replacement Card, goods can then either be collected in-store or dispatched to claimants via our nationwide delivery service.
